

SEES GREAT STRIDES IN LEAGUE PROGRAM

Assistant Secretary Roosevelt Thinks
Plan Will Go Through and Will
Rank as Great Achievement.

AMENDMENTS SUGGESTED

Changes Would Be Acceptable and
Ought to Be Included in Final
Draft, He Says in Address.

BALTIMORE, Md., March 29.—In an address on the league of nations at the city club today, Franklin D. Roosevelt, assistant secretary of the navy, declared the belief that the league furnishes an opportunity for putting forward one of the greatest progressive strides the world has ever undertaken.

"I have faith," he explained, "that the league of nations will go through in the end with the support of the great majority of our nation to the unmitigated delight of millions of the down-trodden in Europe."

"I have faith that it will work out and that we and the other nations will make an unselfish effort to make it the best thing in the world so that under it our relations with mankind will go from better to better."

Mr. Roosevelt did not express unqualified satisfaction with the proposals of the league and said frankly it would be "very nice" if there were added amendments, notably one supplying recognition of the Monroe doctrine and if there could be some assurance granted that the United States would not be called upon to interfere with European questions unless there were absolute need to prevent such a great catastrophe as a repetition of the world war.

"But there is no doubt that generally speaking the people here as in Europe are in favor of some form of agreement stronger than The Hague convention—an agreement with teeth. And if we are willing for this we must be willing to give up something even if it be a sovereign right of our nation."

"I have faith in the common sense

of the statesmen at the peace table and believe, under the present regime of the league, even without amendments, that if there were trouble in Europe, the United States will not be called upon and also that the United States would be left to settle its difficulties on this continent."

EUROPE OPPOSING MONROE DOCTRINE

LONDON, March 29.—The foreign ministers of the "big four" have begun a series of conferences to work out a policy on the same lines as that of the daily conference of presidents Wilson and the British, French and Italian partners. The object is to hasten and clarify the work in hand.

Those present at the initial session were Raymond Laming, A. T. Hall, Mr. Wilson and French ministers.

Opposition is developing against any clause in the league of nations purporting to recognize the Monroe doctrine. Other nations are attempting in a similar way to protect their own interests.

Armour Rumored Ready to Start Construction on a Storehouse Here

Rumors in local industrial circles have it that Armour & Co. will erect this spring at the corner of First and Broadway a storage and packing house to cost approximately \$50,000.

It is understood that local trade has outcried the facilities of present accommodations and the new building is a necessity. No confirmation of this report is obtainable except the hint dropped by a local business man.

It is also rumored that the Commercial Supply company has purchased the ground near the M. & T. tracks where the old Union case was located and will erect a new business house. One of the local churches opened bids Saturday night on several houses now on the property where this institution expects to erect a house of worship. The houses now on the ground will be moved by the purchaser.

HITCHCOCK PREDICTS LEAGUE ACCEPTANCE

Nebraska Senator Says He Thinks
Senate Will Ratify Treaty With
Provision For League.

WASHINGTON, March 29.—Senator Hitchcock of Nebraska, former democratic chairman of the senate foreign relations committee, in a statement today declared his belief that no important changes had been made in the covenant of the league of nations for the committee having in mind the ratification of the treaty even though it contained no provision specifically exempting the Monroe doctrine.

"The statement was made upon the senators return from a speaking trip to the middle west where he said indications pointed to increasing sentiment favorable to the league."

"I do not think," said Senator Hitchcock, "that any important changes have been made in the league of nations plan, but what changes have been made were for the purpose of clarifying the language."

Senator Hitchcock said the president had stated that amendments relative to the Monroe doctrine, the value of immigration and other domestic questions as well as an "right of nations to withdraw" economic questions as well as an amendment for the purpose of clarifying the provision relative to management of action were "acceptable to him," although he thought the original draft covered the points. The senator quoted the president further as saying that he did not like to propose any amendments because of his fear that such action would reopen the whole matter and cause delay in the final signing of the peace treaty.

"My letter to the president," said Senator Hitchcock, "was written with a view to giving him information as to sentiment in the senate. I expressed the conviction that the senate would ratify the peace treaty if it contained the league of nations as an integral part, whether amended or not, but thought a few amend-

ments would greatly facilitate its ratification.

"Among those I mentioned were a reservation to each nation of its exclusive control over domestic subjects, a specific provision that each nation might withdraw from membership on giving reasonable notice, a definite statement that the acceptance of the burden of a mandate by each nation should be entirely optional, and a specific reservation of the Monroe doctrine. I did not recommend or urge these amendments or any of them. In fact, I thought some of them were already covered in the constitution."

WANAMAKER'S EFFICIENCY EXPERT TO GIVE LECTURES

Dr. Stanley L. Keeble of New York is in Tulsa for a series of lectures on various phases of business efficiency, salesmanship and advertising. His first lecture will be in the Y. M. C. A. at the Sunday forum here today. He will give his address "The Mastery of Jargon" on Monday, Tuesday and Wednesday evenings at 8:30 in the high school auditorium. He will give a series of addresses on salesmanship and advertising.

He is brought to Tulsa by the invitation of the city through the Y. M. C. A. and his lectures are open to the public without admission.

Dr. Keeble is the man whom John Wanamaker selected and employed every day for three years to improve the salesmanship, efficiency and service of his great body of salespeople and managers. He is a practical psychologist and has lectured on three continents, in all but three states of the union and is an author of many standard works on business efficiency, salesmanship, advertising, etc.

The Golden company will have three lectures at 11 Monday, Tuesday and Wednesday mornings. These lectures are to be given to the foremen of the West Tulsa plant.

The subjects of the lectures to members of the high school auditorium are as follows: Monday, "Masters that Win in Business"; Tuesday, "The Goods—How to Know Them and Show Them"; Wednesday, "Double Sales." The lectures at the Golden refinery will be "Personal Efficiency and Management" for the first two lectures and how to combine these two will be explained at the third meeting.

SPRING CAUSING A STIR ON SPAVINAW

Members of Ozark Club Preparing
for Fishing Season—Many to
Build Bungalows.

Spring sunshine is causing great activity in Tulsa-ozark club circles. With a beautiful clubhouse and eight miles of continuous fishing waters on the beautiful Spavinaw, this organization has the finest fishing and hunting resort in the entire south-west.

Many of the members are making plans for the building of bungalows for their personal use where their families may enjoy privacy and at the same time have every comfort of their Tulsa homes. Some will provide their own means, but the majority will take their meals at the club.

Meals will be served by excellent cooks who understand every angle in the preparation of home cooked chicken, duck, lamb, country ham and vegetables.

A committee will begin Monday, March 31, to finish the membership membership 200. The organization permits a certain number of mem-

bers from outside of the city and already a number of applications are in.

While many of the members are among the most wealthy men of Tulsa, yet it is not a "highbrow" organization in any sense of the word. The only qualification necessary is that of being a good citizen.

"It is another case where we have the scenic effects of the Yellowstone park and the fishing of Colorado right at our doors within three hours' ride by automobile and our people do not know it," said E. W. Sinclair. And so it is and there is no question but what the Tulsa-ozark club will become one of the most popular resorts in the west.

WORLD REPORTER TO FLY OVER CITY

CONTINUED FROM PAGE ONE

afternoon for the first flight. They will fly to the point directly over the business section of the city, circle several times and then climb to a height of about 5,000 feet.

To Try All Things.

At this altitude the exhibition will begin, loop the loop, tail spin, rolls and other evolutions known in aviation in the past as feats of daring, but now classed merely as stunts, will follow one another in

rapid succession in plain sight of everybody over the heart of the city.

Tulsa will have the opportunity of seeing its first lady citizen, and perhaps the first lady in the southwest, do some real live stunts in an airplane. Miss Suppes made a trial flight with Mr. Campbell Thursday afternoon "just to learn the ropes," and is highly enthusiastic over the approaching event. At the conclusion of this flight at the aviation field she was pronounced "fit" and the possessor of "lots of nerve" by ex-Lieutenant Campbell.

To Boost Loan.

Tuesday afternoon the couple will again fly over Tulsa. On this flight Miss Suppes will scatter Victory Liberty loan propaganda in the form of hand bills to advertise the approach of the fifth and last Liberty loan.

Tuesday afternoon the couple will fly over Tulsa. On this flight Miss Suppes will scatter Victory Liberty loan propaganda in the form of hand bills to advertise the approach of the fifth and last Liberty loan.

Miss Suppes has already expressed the determination to make the remainder of the course under the instruction of Mr. Campbell and become a certified flyer in the end. The aviator himself is authority for the statement that she is one of the most apt pupils it has ever been his lot to instruct.

W. T. Campbell is one of the officials of the newly organized Tulsa Southwest Airplane company and the subsidiary organization known as the

Airplane Travel company. Only recently he was discharged from the aviation section of the United States army with an enviable record of world's record for consecutive loop-the-loops, having looped 151 consecutive times at a 1000 feet altitude.

Ex-Lieutenant Campbell is enthusiastic as to the future of aviation in the southwest and particularly in Tulsa. It is recognized that aviation has developed during the past few months into a business of considerable value and has passed out of its venturous stage. The Tulsa Southwest Airplane company distributes the Tulsa are now taking the course of instruction in flying under Mr. Campbell.

Watch for Miss Suppes and Campbell Monday afternoon at 2 o'clock. Watch also for the aviator's flights by Miss Suppes and the Tulsa Daily World.

An Oklahoma aviator has been awarded a decoy duck that swims about in water and emits a quack.

An airplane having seven passengers arranged in a complete circle is claimed by the French inventor to be perfectly stable.

Fine clothes for business men—

THE business or professional man of today who doesn't wear good clothes is conspicuous because of that fact. He is regarded with curiosity to say the least. You won't find any such men in Tulsa. On the contrary you'll find Tulsa business and professional men among the best dressed men of America. You can see why we're proud of the part we have in keeping them well dressed.

The correct spring styles are here

STYLE isn't so much a matter of a certain number of buttons, or the exact width of a lapel as it is the general lines of the garment. It isn't a matter of how many stitches, but of how each stitch is done. It isn't a matter of how many tailors but of how skillful each tailor is.

YOU can see exactly what correct style is by a glance at the new spring models here now. Styles for men of affairs; conservative yet as up-to-date as your morning newspaper. The fabrics, shades, patterns and workmanship are as distinctive as the styles. We can fit any size man at

\$40 and upward

Knox spring hats

THE Knox hat is a prime favorite with business men and all men who look for exceptional quality and correct styles. Here now in all the new spring shapes and shades at \$8.

Clapp spring shoes

CLAPP shoes are made for men who demand comfort as well as style in footwear. Here in English, modified English and straight lasts at \$12 and up.
